# Package names are used for an administrative convenience, generally refers to the common names or ranges of groups of species

## Action abbreviations are as follows: 12M = 12-month petition finding, PLPCH = proposed listing (if warranted) and proposed critical habitat (if prudent and determinable), PL = proposed listing (if warranted), PCH = proposed critical habitat (if prudent and determinable), FLFCH = final listing and final critical habitat (if warranted and if prudent and determinable), rPCH = revised proposed critical habitat, rFCH = revised final critical habitat, 4(d) = special rule for currently listed species

### Date = Fiscal Year within which a finding or rule is scheduled to be submitted to the Federal Register for publication. Click on the species common name and then on the Federal Register link on the associated species page to determine whether an action has been submitted to the Federal Register and the date of its publication. The target date for a final rule is one year after publication of the proposal. Dates that are labeled in **bold red italics** are stipulated in the MDL agreement or another court settlement agreement.

For Regional Office contacts: <http://www.fws.gov/endangered/regions/index.html>

\* Maui Nui package also includes revision to critical habitat for 85 listed plant species
