**Thursday, March 30** -

8:30 - 11:00 Facilitated Planning Session: Through Executive Order 13781, the President has created the opportunity to have input on the elimination of federal agencies or transfer of federal natural resource programs to the States and local government. This facilitated workshop will review the principals from presentations and solicit input from presenters, commissioners and the public for compilation into a workable strategy - from local government - to reduce the size of the Federal government.
